

# Figer les volets

Afin de bloquer des colonnes ou des lignes, il faut faire une action appelée "figer les volets"  
Voici la procédure

- Déterminer la case clé.
  - À gauche de cette case, les colonnes seront figées,
  - En haut de cette case, les lignes seront figées
- Cliquer sur cette case
- Trouver le bouton "Verrouiller les volets" qui se trouvent en haut à droite.

Voilà votre fichier grandement amélioré en lisibilité !
